**Erratum to: ZAF (2011) 44:363–376**  
**doi:10.1007/s12651-011-0092-4**

In the original publication some values in Table 1 on p. 368 and in Table 3 on p. 373 have been given incorrectly. All percent-values are replaced by meaningless fractions. This

mistake happened during the production process of the article and sadly remained unnoticed.  
The corrected tables are given below.  
The publisher apologises for this mistake.

**Table 1** Employment rate of older workers by levels of qualification in 2007—percentages of gainfully employed persons as part of the corresponding population

Qualification level	Employment rates			
	Aged 50 to 54	Aged 55 to 59	Aged 60 to 64	Aged 30 to 49
Unskilled	63.4	57.5	34.7	64.4
Apprenticeship	82.3	74.3	43.2	85.6
Technical college degree	91.3	84.5	55.4	92.9
University degree	92.3	88.8	67.5	90.3
Total	81.6	74.3	46.4	83.5
